

Willow Springs International Raceway

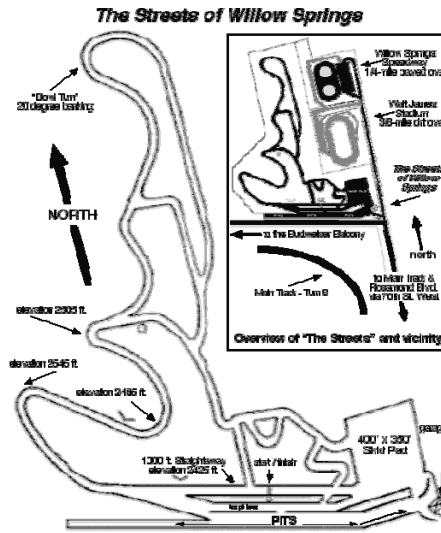

3500 75th Street West, Rosamond, CA 93560

Nestled in the desert hills of the greater Los Angeles area, Willow Springs international Raceway has been around since 1953. The facility marks the home for FAST LANE, Southern California's premiere road racing school. With several different tracks to choose from, we have a venue for every experience and thrill level.

The Streets of Willow

The Streets of Willow was built in 1987. Its multi-functional attributes make it a great training facility. Elevation changes, increasing and decreasing radius turns, off-camber gives drivers many challenges as they increase their speed. Celebrities like Cameron Diaz, John Elway, Jesse James, Ashley Judd, Jay Leno, George Lucas and William Shatner were trained by us on the Streets of Willow.

The first two days of our Driving School Course Weekends are held on this track.

Skid Pad

Built in 1986, the skid pad is paved and measures 350' x 400'. We take each vehicle to its limits on the skid pad. We teach you to correct for understeer and oversteer during our wet and dry skid pad exercises.

2.5 Mile Road Course

This 2.5-mile road course has been dubbed *"The Fastest Road in the West,"* and for good reason. The racetrack consists of an array of elevation changes, nine turns and one *long* straight away where speeds on some cars and motorcycles have been known to break 200mph. Speeds on the turns can approach anywhere from 70mph to 170mph. How's that for fast?

This track is used for the third day of our Driving School Course Weekends, Advanced Road Racing Courses Corporate Programs and Private Coaching.
